SUMMARY

Strategic and architecture-minded technology leader with over a decade of experience spanning software engineering, team leadership, and pre-sales engineering. Proven ability to drive complex digital initiatives, architect scalable platforms, and bridge technical and business needs. Skilled in mentoring global teams, leading cross-functional projects, and translating enterprise requirements into effective solutions. Currently focused on leadership, solution architecture, and client-facing collaboration.

SELECT PROJECT HIGHLIGHTS

- Enterprise CMS & CRM integration across marketing platforms (Sitecore, Dynamics, Rackspace, AWS SQS)
- Hackathon finalist: Robot assistant prototype for unaccompanied minors at airports; presented to CIO and execs
- Automated data integration with Buxton Scout BI tool using custom Selenium scrapers
- Master Data Management platform consolidation for downstream warehousing
- Mobile check-in and aircraft seat map solution for major airlines (white-labeled)

SKILLS

Leadership & Architecture

Team Management	Pre-Sales Engineering	Agile/Scrum	DevOps Strategy
Solution Architecture	Stakeholder Engagement	Strategic Planning	Change Management
Conflict Resolution	Process Improvement	Decision-Making	Delegation
Mentoring & Coaching	Risk Assessment	Resource Allocation	Operational Efficiency
Employee Development	Vision Setting		

Platforms & Tools

Sitecore	Azure PaaS	Git	MuleSoft
Azure DevOps	Octopus Deploy	TeamCity	SonarQube
WordPress	Copilot (VS Code)	ChatGPT	

Languages & Frameworks

C#	C/C++	ASP.NET	PHP
MS SQL	PostgreSQL	Java	JavaScript/TypeScript
Angular	SCSS	HTML/CSS	SAP Lumira
SSIS	D3		

CERTIFICATION

Sitecore 10 .NET Developer Certification October 2022

PROFESSIONAL EXPERIENCE

Infinite Computer Solutions / WorldStrides (Rebadged)
People Manager & Solutions Architect • February 2021 – January 2025

- Directed two globally distributed teams (13 people total) across development and operations; responsible for hiring, mentoring, and performance management
- Led architectural oversight for three platforms including a mission-critical PHP/PostgreSQL system, and a multi-tenant, multisite Sitecore implementation, reporting directly to the CIO
- Owned pre-sales engineering efforts, translating complex technical capabilities into business value for prospective clients
- Spearheaded major payment initiatives (ACH integration, surcharging, payment gateway migration) using MuleSoft and Azure
- Championed team-wide process standardization, improving delivery consistency and engineering velocity

WorldStrides, Inc.
Sitecore Lead • August 2019-February 2021

- Established and led three global development teams working with Sitecore, WordPress, and PHP platforms
- Provided architectural guidance, code review, and development standards focused on security, maintainability, and performance
- Oversaw enterprise-wide Sitecore migration to a multi-tenant architecture and led Azure-based hosting transformation
- Acted as liaison between technical teams and business stakeholders; championed DevOps and CI/CD improvements
- Mentored team members across levels, fostering a culture of technical excellence and accountability

Dal-Tile Corporation
Sr. Sitecore Developer • March 2018-May 2019

- Led upgrade of Sitecore environment from 8.0 to 9.0 and architected DevOps toolchain including TeamCity and Octopus Deploy
- Automated build, release, and code quality pipelines; integrated SonarQube and Git-based workflows
- Provided technical leadership and mentoring to junior developers
- Participated in enterprise DevOps tool evaluations and infrastructure planning
- Delivered self-service deployment tooling that reduced release time and errors

American Airlines
Business Technology Analyst • January 2017-February 2018

- Acted as technical bridge between business and engineering for legacy system decommissioning and new application design
- Facilitated requirements gathering and implementation planning for high-impact airline technology initiatives
- Led impact and gap analyses for enterprise application transitions and integrations
- Translated business needs into technical solutions across multiple Agile teams
- Recognized as a key liaison for operationalizing travel systems integrations

D.R. Horton
CMS Developer • October 2015-November 2016

- Spearheaded integrations across CMS (Sitecore), CRM (Dynamics), and marketing systems
- Championed adoption of agile development practices and DevOps tools (VSO, AWS SQS)
- Developed and supported enterprise-scale marketing platform for 79+ markets across 27 states
- Assumed interim BA and CRM developer roles during team transition
- Initiated BI planning and system design for downstream reporting and analytics to support marketing intelligence

(Earlier experience includes roles at Sigma Technical Group, Fusion Consulting, Sabre Holdings, and Pier 1 Imports. Available upon request or LinkedIn profile.)

EDUCATION

University of Texas at Arlington • B.S. in Computer Science, *Cum Laude* May 2013
